## **SDG Business Solutions Selected as Intuit Solution Provider**

**Sacramento, CA –April 16, 2008** – SDG Business Solutions announced today that it has been selected as an Intuit Solution Provider. SDG Business Solutions offers a full range of value-added consulting services for **QuickBooks Enterprise Solutions®** ([www.quickbooksenterprise.com](http://www.quickbooksenterprise.com)) developed by Intuit Inc., a leading provider of business and financial management solutions for small and mid-sized businesses, consumers and accounting professionals.

The Intuit Solution Provider Program will enable SDG Business Solutions to better serve regional clients and build their business through the sale, implementation and service of integrated solutions. The program's lead offering, QuickBooks Enterprise Solutions, is a flexible and affordable business management solution designed specifically for growing businesses. The software helps businesses efficiently input, organize and access the information they need to manage finances, inventory, sales, purchasing and employees, and make key decisions for growth.

"We are very excited to have SDG Business Solutions as an Intuit Solution Provider," said Jim Gregg, director of Intuit's solution provider program. "Their expertise in reselling and supporting mid-market business software solutions and their track record for customer satisfaction make them a valuable addition to our Solution Provider network."

"Our clients need more than entry-level accounting solutions," said Steve Green, Principal of SDG Business Solutions. "They need software with more functions, security, transaction volume and system controls than offered by the basic accounting solutions."

"QuickBooks Enterprise Solutions fills that need with the power and flexibility to meet our clients' needs as they grow, and at a price that is thousands below competitive products," he said. "It bridges the gap between off-the-shelf accounting software and the high cost of ownership with traditional mid-market accounting packages."

After twenty years experience as a software consultant and operational manager with one of Sacramento's largest independent accounting firms and having supported the QuickBooks product line since 1996, Steve Green formed SDG Business Solutions, LLC to provide small and mid-sized business owners with the highest level of quality QuickBooks consulting services.

In addition, Steve Green's expertise in the QuickBooks consulting field has provided him the unusual opportunity to extend his practice beyond working with regional business enterprises. He has also worked with numerous companies that have developed vertical market applications which interface directly with QuickBooks, is a member of the Intuit's Speaker's Bureau, has been a speaker at the national Sleeter Group Conference for the past four years and has been a contributing author on several of the Sleeter Group's QuickBooks training manuals.

About Intuit Inc.

Intuit Inc. is a leading provider of business and financial management solutions for small and mid-sized businesses; financial institutions, including banks and credit unions; consumers and accounting professionals. Its flagship products and services, including QuickBooks®, Quicken® and TurboTax® software, simplify small business management and payroll processing, personal finance, and tax preparation and filing. ProSeries® and Lacerte® are Intuit's leading tax preparation software suites for professional accountants. The company's financial institutions division, anchored by Digital Insight, provides on-demand banking services to help banks and credit unions serve businesses and consumers with innovative solutions.

Founded in 1983, Intuit had annual revenue of \$2.67 billion in its fiscal year 2007. The company has approximately 8,000 employees with major offices in the United States, Canada, the United Kingdom and other locations. More information can be found at [www.intuit.com](http://www.intuit.com).
